

HEALTHCARE SOLUTIONS

Scientific approach. Global best practice. Risk reduction.

Tsebo's services go beyond cleaning and hygiene for appearance to cleaning for health. We deploy the best that science and technology have to offer in our 'Science of Cleaning' approach. Our primary focus remains infection control and prevention to promote the health and wellbeing of everyone in all healthcare spaces.

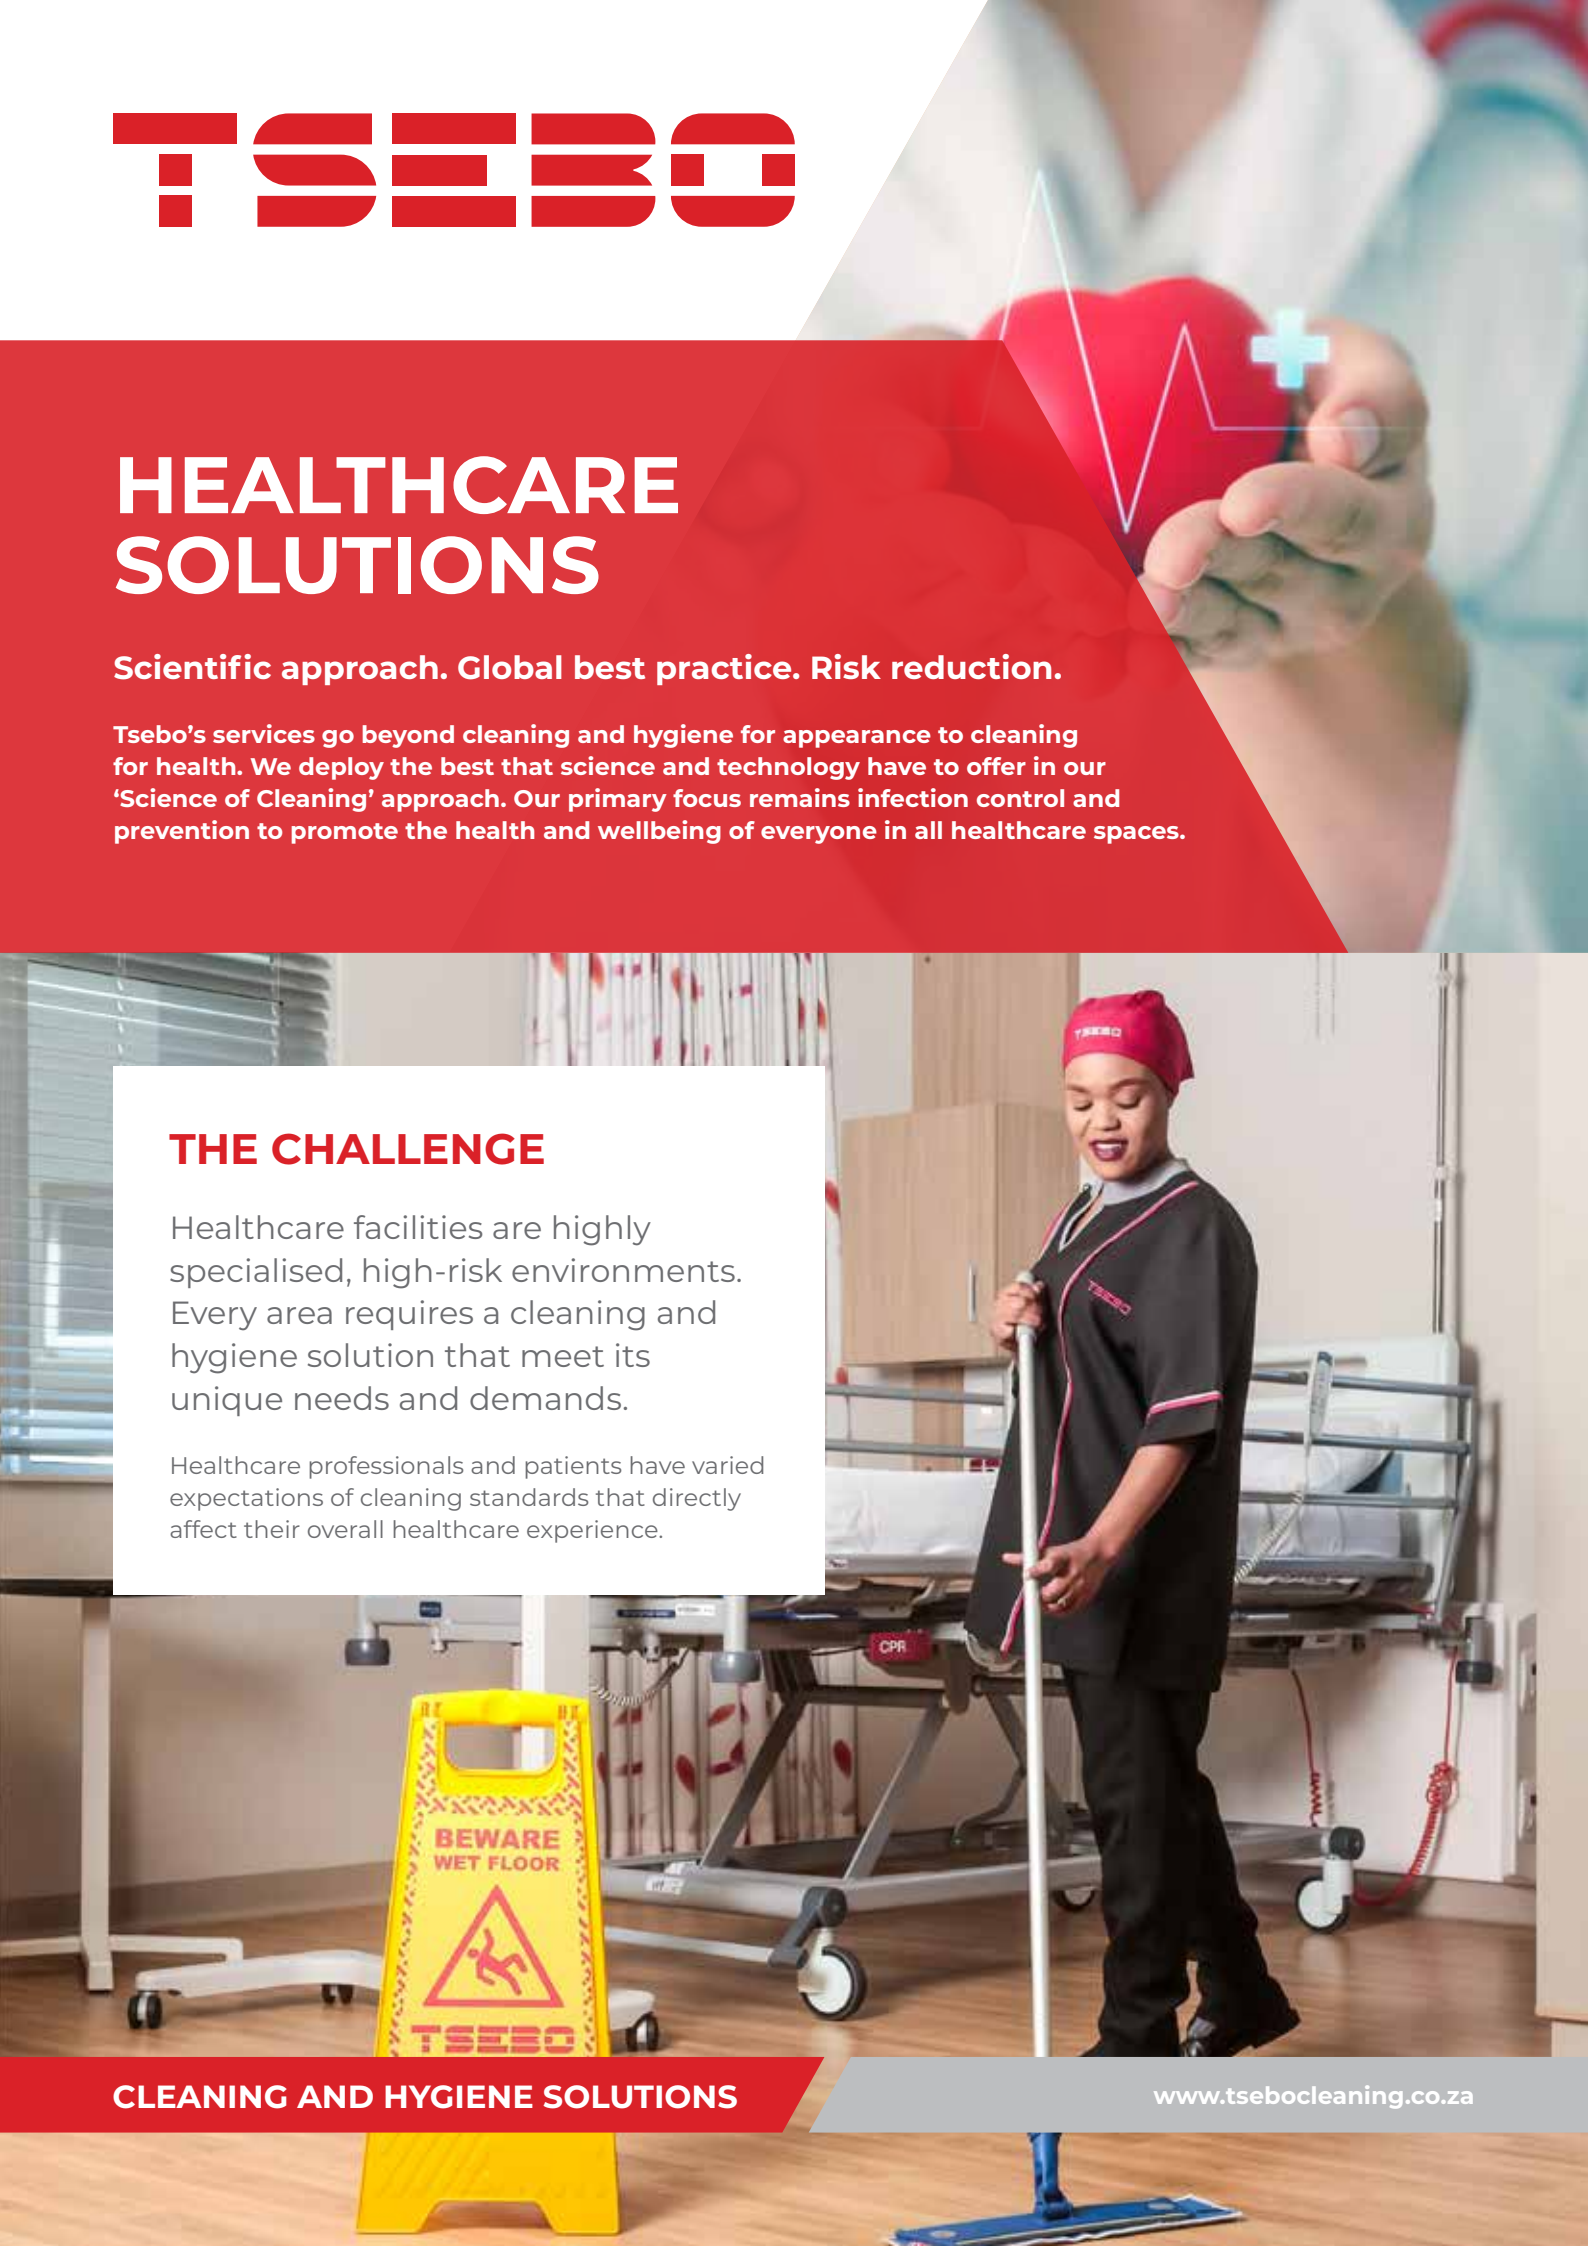

THE CHALLENGE

Healthcare facilities are highly specialised, high-risk environments. Every area requires a cleaning and hygiene solution that meet its unique needs and demands.

Healthcare professionals and patients have varied expectations of cleaning standards that directly affect their overall healthcare experience.

OUR SOLUTIONS

A competent and confident workforce who are well-trained to clean and disinfect low, medium, and high-risk areas using the most recent fit-for-purpose equipment and tools.

- Continuous high focus on infection prevention in our methodology and soft skills training. Also, courtesy towards patients confirms our motto 'Cleaning Beyond the Obvious'.
- Management teams follow a first-hand approach of measuring quality standards, supported by a sound electronic quality management system that includes UV stamping and proof of service.
- Services are customised to your premises based on layout, ward sizes, shared spaces, and high traffic areas as well as any other unique cleaning needs.
- Our infection prevention response and practices, including the chemicals used, comply with the Centre for Disease Control and World Health Organisation guidelines, especially during the current demands of COVID-19 preventative and responsive cleaning.
- We provide high quality hygiene dispensers, consumables, and disinfectants that are certified and approved, and effective against a wide range of viruses, bacteria, and fungi.
