

INDUSTRIAL AND MANUFACTURING CLEANING

**Minimise downtime, maximise cleanliness:
Tsebo's Expert Industrial Cleaning**

Experience matters: our experts tackle industrial cleaning challenges.

THE CHALLENGE

Industrial facilities face unique challenges in maintaining safety standards, quality, and ensuring efficiencies during operation.

To ensure your premises and equipment are in best condition, it is crucial to partner with an experienced cleaning company that specialises in the industrial sector. Tsebo Cleaning and Hygiene understands the demanding nature of industrial operations, where tight deadlines and continuous operations require efficient and effective cleaning solutions. We excel at both rapid and thorough industrial cleaning while working closely with your production schedule to minimise downtime.

OUR EXTENSIVE RANGE OF SPECIALISED CLEANING SERVICES

Our tailored solutions cover a wide array of industrial cleaning needs, including high pressure cleaning, fire or flood damage clean-up, steam cleaning, and pest control. From deep cleaning ablations to post-construction or pre-occupancy cleaning, our expertise covers it all.

Deep Cleaning Services: Our precision deep cleaning targets hidden locations, high-level cleaning, eliminating build up of dirt that is not only unsightly but can also become breeding for mould, rodents, insects, allergens, and pathogens. We employ specialised techniques and equipment to provide the solution that pertains to your site, including high level detail cleaning, cleaning hard surfaces and structures with high pressure equipment as well as disinfection.

Mould Remediation: Tsebo offers expert mould remediation services, which involve a multi-step plan to make your space less hospitable to mould. Periodic cleanings will keep mould managed in buildings, ensuring a healthy environment for your employees.

Environmentally Friendly and Sustainable Cleaning Agents: We prioritise the use of environmentally friendly and sustainable cleaning agents to minimise environmental impact while effectively cleaning industrial spaces. Our focus is on maintaining a contaminant-free and hygienically safe area during the cleaning process.

Food Safe Chemicals: We comply with chemicals specifically targeting to the food manufacturing space. We are additionally HACCP compliant, ensuring that the correct equipment and consumables are coupled with the most efficient cleaning solution. Specifically designed cleaning methodologies are tailored to prevent cross contamination whilst maintaining a safe environment for all staff and visitors.

Your Trusted Industrial Cleaning Partner: With state-of-the-art equipment and a commitment to eco-friendly practices, Tsebo Cleaning and Hygiene Solutions ensures your industrial facility meets the highest cleanliness and safety standards. Let us help you create a hygienically clean and productive environment in your industrial workplace.
