

HYGIENE AND PEST CONTROL SOLUTIONS

Fast, reliable information to keep tabs on pest control.

THE CHALLENGE

Businesses face increasing pressure to provide sustainable solutions to workplace issues and back these up with data to ensure compliance. For those that operate in the food processing, food retail or hospitality industries this is particularly important as non-compliance can result in loss of permits, operational income or even shut down. For business owners or managers, however, maintaining compliance comes with its own set of challenges such as:

- Dealing with masses of paper-based documents
- Material safety data sheets that are outdated or expired
- Lack of reliable up-to-date data
- Auditors rejecting documentation because it doesn't meet minimum standards
- Pest control actions that inconsistent or incorrectly captured
- A lack of accountable documentation

OUR SOLUTION

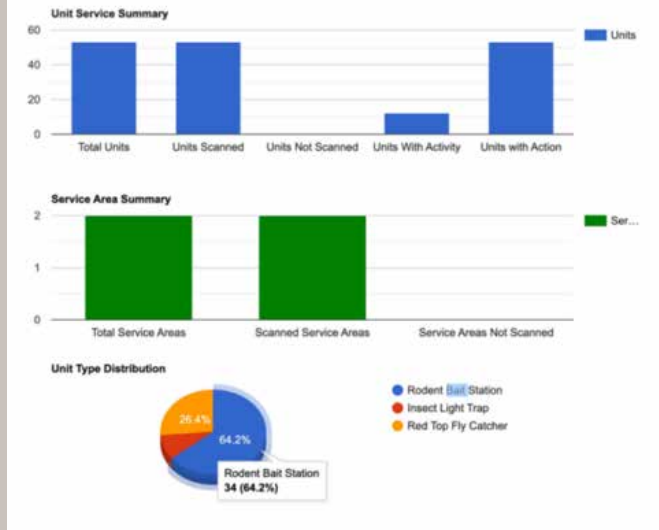

As an innovative company, Tsebo Hygiene and Pest Control Solutions offers a tech-driven solution for paperless compliance with pest control auditing requirements. Our bait boxes feature QR codes for efficient service tracking, enabling our specialists to implement preventative measures effectively. Clients benefit from real-time access to an online app for comprehensive tracking and documentation of pest control activities.

KEY FEATURES

- Cloud based
- Trend analysis of pest activity
- Customised user reporting with the ability to schedule reports
- An integrated document management system
- Paperless corrective actions
- Potential risks can be anticipated and preventive measures taken
